This information sheet is here for you. Please keep a copy of this sheet for your records as it contains the vital bits of information you need to make sure that you are protected.

In conjunction with the standard to ensure the protection level of the kneepad they must be tested with the trousers that the kneepad is to be worn with, this is because different fabrics can change the protection factor of the kneepad.

Please be sure follow the guidelines within this information sheet.

These kneepads have been subject to an EU Type examination by the notified body, SATRA Technology Europe Ltd, Bracetown Business Park, Clonee, DI 5 YN2P, Ireland, (NB Number 2777) according to the European standard EN 14404: 2004 +A1: 2010 for knee protectors for work in the kneeling position. The CE mark printed on these signifies the respect of the essential requirements of the European Regulation 2016/425 regarding Personal Protective Equipment.

English

However, always remember that no item of PPE can provide full protection and care must always be taken while carrying out the risk-related activity.

PERFORMANCE:

This product has been tested in accordance with BS EN 14404:2004+A 1:2010 and have achieved the following performance: **Type 1 Level 1.**

HOW TO SELECT THE PERFORMANCE LEVELS OF PROTECTION:

Level 0 Knee protectors suitable for use on flat or non-flat floor surfaces and providing no protection against penetration

Level 1 Knee protectors suitable for use on flat or non-flat floor surfaces and providing protection against penetration at a force of at least (100 + 5) N

Level 2 Knee protectors suitable for use on flat or non-flat floor surfaces and providing protection against penetration at a force of at least (250 + 10) N

USAGE:

These kneepads are designed to give limited protection of the wearer's knees when working in the kneeling position.

The worker must however be aware of the danger of chronic damages to the knees and must regularly leave the kneeling position to slow down the effects. To gain optimum protection other appropriate PPE should be worn e.g.

Safety footwear, Gloves, Safety glasses. They must be worn during the whole duration of exposure to any potential hazard for the knees. If the kneepads become damaged, replace them immediately by a new pair.

FITTING:

This product is intended to be placed on your knee and strapped on by the bottom and top straps in a comfortable and stable position, while not constraining blood flow. Products which are either too loose or too tight will restrict movement and will not provide the optimum level of protection. Always test the positioning of the pads before commencing any work. This protector is available in one size fits all and has adjustable straps the sizing is based on a waist size of 100 cm. The kneepads are of Type 1 (independent from another garment) and must be placed outside the trousers and attached.

LIMITATIONS OF USE:

These kneepads do not provide protection against water, chemicals nor fire. If the protector show signs of severe wear such as broken shells or ripped pads the kneepad should be replace. The kneepads have a service life of a minimum of 5 years although this may vary the products should be inspected prior to every use

CLEANING AND MAINTENANCE:

The kneepads are not washable - Depending on the degree of dirt after use tap and brush out the kneepads and wipe over with a damp cloth.

STORAGE AND TRANSPORT:

When not in use, store the product in a well-ventilated area away from extremes of temperature. Changes in environmental conditions such as temperature may reduce the performance of the protector. Never place heavy items on top of it. If possible, avoid excessive folding and preferably store it hanging vertically. If the product is wet, allow it to dry fully before placing it into storage.

REPAIR:

If the product becomes damaged, it will NOT provide the optimum level of protection, and therefore should be immediately replaced. Never use the damaged product.

END OF LIFE:

Used products should be disposed of in accordance with the local / national environmental regulations at an appropriate land fill site. Further information regarding these regulations can be obtained from your local authorities.
